

Warren Blosjo, 3Factor, LLC, FiXs Vice President

Mr. Blosjo is the sole proprietor of 3FACTOR, LLC providing advisory/consulting services in information security and identity management. After retiring from the Army where he served as a human intelligence specialist and Signal Corps officer, Mr. Blosjo spent the last 25-years in public service, corporate employment, and as a consultant. He has been a contracting officer, program manager and policy analyst solving problems for the Departments of the Army and Navy. During his corporate tenure, he provided smart card system business development for Litton PRC/Northrop Grumman. Pursuing an independent career, he has represented vendors providing specific segment solutions to the federal government and commercial sector including identity management and biometric systems. Mr. Blosjo currently provides advice and consulting to the government for smart card enabling consistent with Federal Identity, Credential, and Access Management policy.

A founding member of FiXs, Mr. Blosjo continues to assist in refining the transparent policy, methods and means required for each citizen to manage and protect their own identity and resources.

Mr. Blosjo lives in Northern Virginia with his wife and daughter. His hobbies include golf.
